THE DEMOCRATIC PARTY'S OPPOR-

If the Democratic party were wise, it has to-day the opportunity that does not come twice in the life of a party much oftener than it comes in the life of an individual. A review of the past five years

mium which Harrison immediately prosurplus cash lying in the Treasury for which the government had no other use. By one of those strange fatalities through which nations have often been caused to act on a case before it was fully understood, the American people turned the Democratic party out of power in the fall of 1888, upon the very issue on which, four years afterwards, they returned it to power by a practically unanimous vote. Coming into possession by that election of every department of the government, what did the Republican party proceed to do? They hastened to loot the Treasury and squander every dollar of the surplus that Demogratic thrift had accumulated. But they did not stop at this. They added to the permanent expenses of the government millions in the way of fixed appropriations which were unnecessary, but which we will probably never rid the government of-so much easier is it to secure an appropriation than to end it. Rioting in their power, they imposed tariff taxes upon every thing that Americans must use in their daily life that robs them of hundreds of millions of dollars which go into the pockets of tariff protected monopolists who in return contribute to the Republican party a percentage of these profits as a corruption fund with which they may debauch the elections of the people, and their reckless and corrupt work leaves the Treasury now with a list of annual expenditures \$80,000,000 greater than its receipts. This is the state of affairs which the first stage presents, and it is bad enough. The next stage is one for which the Democratic party and the Republican party are jointly responsible but the Democrats more largely than the Republi-

That little cloud which was no larger than a man's hand in February, 1889, had grown by June, 1833, into a tornado that threatened the very life of the nation. Yielding men, procrastinating men, and weak men, had allowed the wild men to organize and consolidate all those restless elements in every society that look to change for all good, until they had fastened a malign grip upon the throat of order and rest, that threatened death to the nation from asphyxiation and dry rot. The Republican party is beyond question responsible in part for the disaster which free silver brought on the country. but the Democratic party must just as certainly bear the greater parts of that burden. This is the second stage in the case and this stage lost the Democratic party the confidence of the nation.

The third stage is now upon the country. The Treasury is without money except the gold fund provided as a reserve, and this must back more than one thousand millions of demand gold obligations, and that fund is reduced to but little more than \$60,000,000. The Secretary of the Treasury has advertised a government loan to build up this fund and the Judictary Committee of the House of Repives, the court of that body, on the metion of a southern free silver advo- but had foreborne to comment upon it. support them and their families."

cate, solemnly declares that he has no authority to issue the bonds. The national tendency of this act is to discourage investors from buying the bonds. It is not to be expected that capitalists will hasten to buy bonds, the validity of which is so seriously called in question. What is to happen if Mr. Carlisle is prevented

from negotiating his bonds? One shudders to think of what will

necessarily happen. If Mr. Carlisle is prevented from replenishing the gold fund, it seems inevitable that the government must very soon suspend gold payments, which means an immediate transfer of all business from an hundred cent basis to a fifty cent basis. It is appalling to contemplate what this would mean. It means an immediate demand of the payment of all debts with 199 per cent. of all men engaged in trade and commerce forced to protest.

Now is the Democratic party's opporfunity. Let its representatives in Congress lay aside for the time all of their factional divisions and come together resolved to conquer the confidence of the conservative, property owning and order loving elements of the nation. Let them bring forward at once a bill declaring that this government will never, under any circumstances, permit its credit to be in the slightest degree impaired and nuthorizing the secretary of the Treasury to sell all the bonds needed for keeping the gold reserve up to whatever point is necessary for inspiring the world with the fullest confidence in our currency, was broken nearly two years ago, and let that bill be passed at once under since that time no living mortal has been whip and spur. If the Democrats in Congress have the wisdom and the conservatism to pass this act they will regain that confidence of the nation which they have now forfeited and which they will not regain in many years unless this opportunity is seized and utilized.

PROFESSOR WILSON IS LEARNING.

The hammering which Professor Wilson's compound of Republicanism and doctrinaire theories has received has produced a small effect at any rate on the duced a small effect at any rate on the motion, the duty on steel rails was reduced from twenty-live to twenty per cent, ad valorem. This will make the tax something like \$4 per ton, instead of ton. Still, this is nothing but that much forced out of all railroads, in the first place, and out of those who ride on and ship by the railroads, ultinately, for the benefit of the pool which has the monopoly of manufacturing steel rails.

We have looked into this matter with a good deal of care and we are satisfied that steel rails can be manufactured in this country as cheap and possibly cheaper than they can be made in Europe. If this be true, every dollar of tax put upon them is in the nature of prohibition against their importation and is conse quently a dollar which the pool controlling the matter is able to extort from the Americans who buy steel rails.

four years of the first Democratic Ad- Iron Age, of January 25th, quotes ap-

ment of bonds, not due, at a high pre- is put into the cupola and comes out to ceeded to do. There were \$185,000,000 of rolling. It is then rolled out into whatever shape the machinery is prepared for. You accordingly as your machinery is ready for the one or the other. It is obvious then that the only difference in the cost of a rail and the cost of a billet is the cratic votes would become the fruitful labor put upon the ingot after it comes from the furnace, and the difference be tween the capital invested in preparing for rolling billets and that invested in preparing for rolling rails. We have looked into the difference between the labor in the two cases, and into the capital also, and we do not think there is any difference which makes a serious difference between the cost of billets and rails. Now steel billets have been offered in

Professor Wilson stated in the House of Representatives, on the 19th of January, that he got his information concerning the manufacture of steel rails and their cost from the United States College of Politicians, called the Department of Labor, which is about as trustworthy as the Census Bureau or the Bu-

he would have gone to manufacturersnot of steel ralls-but of steel billets, and he could have learned that there was very little difference between the cost of the two, and that no revenue could consequenty be raised from a tariff on rails and that such an one would, therefore.

lists. But it is gratifying to know that he has been taught something, even if not

be nothing but a contribution to menopo-

The Dispatch quotes the following from

the Alexandria Gazette: The Washington correspondent of the

Alexandria Gazette, writing his paper on Friday last, says:
"Ameng the visitors here now is Judge Among the Visitors here how is added John T. Harris, of Virgiria. In talking about the recent senatorial election in his State to-day, the Judge said that in the United States Senate of the next Con-gress it would be found that Virginia,

in Mr. Martin, would have her Arthur P.

But now that the Dispatch brings it forward we will remark that it would be well for Mr. Gorman if all others were as ignorant of his true character as they are

of that of the man in the moon. But since the Dispatch quotes this and gives it thereby a seeming endorsement it is quite in order to ask if it also would be proud to have Virginia represented by an A. P. Gorman?

Suicide of Miss Newhouse,

Culpeper, Va., Jan. 29, 1894.
Editor Times: My attention has been called to an article in your paper, dated 39th of January, signed "A Relative," mentioning an article telegraphed you from Culpeper as to the sad ending of my Culpeper as to the sad ending of my daughter's life on the lath instant, statthat if the correspondent was no better informed as to the cause of the sufcide than he was touching the relation-ship of young Hill to General A. P. Hill, they were forced to believe that they not fully informed.

I wish to say in justice to my sorrowing household and our child, who was so dear to us, that she left a note stating that she had never been happy since she had broken an engagement of marriage with young Hill, and could never be happy again, and as life was no pleasure to her she determined to put an end to her unhappy existence, begging of her God and parents to forgive her for the act, and exonerating young Hill from all blame as to their estrangement. Whilst it is in-leed sad to all parties concerned that publicity should be given such matters, it is but justice to the dead, her relatives and friends, that the public should be in-formed of the facts so far as were as-certained by a note left by her, addressed

to her parents. very true that this engagement seemingly happier than our daughter, she never havis alluded to young Hill in any way unless the subject was mentioned to her: therefore the only intelliwas temporarily insane at the time, and was neither responsible for the note she had written nor the dreadful deed she had performed, and that she has been forgiven by her God, as she has been by her sad and loving parents. We have never seen the article referred to by

duced a small effect at any rate on the compounder. On Saturday last, on his cs the highest regard for Mr. Hill.—Ed.)

EDITORIAL COMMENTS.

New York Sun: Although the new ship what he started out with, about \$5 per building policy of the British Admirally may not be entirely announced until the naval estimates are presented in March the decision just reached to devote \$35,000,000 to strengthening the ficet is a fact of crowning importance. The leading details of the new programme are already well understood.

It is now demonstrated that, in spito of the confident declaration of the government that England's mavy is more powerful to-day that the navies of France end costly outlays to strengthen it. The ruth is that the practical question is of what the French and Russian navies

now are, but what they will be, under the plans contemplated.

Last year Great Britain launched the protected cruisers Astraca, Cambrian, Charybdis, Fiera, Forte, and Hermione, each of 4,300 tons, or about as large as ur Philadelphia, making 191-2 knots; she which divide themselves into three stages ought to make that as plain as day.

At the beginning of February, 1889, four years of the first Democratic Administration which the country had known for twenty-five years were about

We have had the benefit of the views and Lynx, of 251-4 knots, and two gun us, and we have also read what the Iron Age, of January 25th, quotes apprevingly from the speech which Mr. Dailzell delivered in the House of Representation of the country had known for twenty-five years were about known for twenty-five years were about coming to a close. The country was in a boom of prosperity with but a single cloud in sight, and that, the silver mania, no larger then than a man's hand.

The United States Treasury was bursting with cash for which no use could be found except to anticipate the payment of bonds, not due, at a high pre-

> New York Times: When the Republicans were desperately striving to pass the Federal Election bill, better known as the Force bill, the New York Tribune cheered on the forces of its party with the assurance that the bill contained the possibility of new tariffs without number. mother of force bills innumerable.

New York World: Bourke Cockran seems to be a Bismarck whom Kaiser Croker cannot placate by any overtures of friendship, and it is thought in Washington that Croker feels a good deal of anxlety over the fact. Cockran is a man of brains and character, decidelly indisposed to take orders from any boss. He has the advantage also of not wanting anything that Croker can offer, while his unusual strength with the masses in America within the past two weeks as low as \$15.50 per ton. The lowest that steel rails have ever sold at in London is 13, 12s. 6d., or about \$18. We can then make rails, we feel confident, at \$18 if not less. this city makes him a man whom a di

THE CONDITION OF THE NEGRO. What Ex-Congressman Lynch, of Missisippl. Says.

This is the way a negro corresponden of the New York Sun presents the views of John R. Lynch, the leading colored politicial of Mississippl;

reau of Appraise in New York Custom House, and then fooled him into believing that it cost \$5 more to make a ton of rails in this country than in Europe, as he then stated. But if Professor Wilson had been animated with the spirit of that good old Latin caution—"Melius est petere fontes, quam sectari rivulos"—

he would have gone to manufacturers—

politicial of Mississippi:

Ex-Congressman John R. Lynch, one of the ablest and best-krown colored men in the country, spends most of his time in the country, spends most of h him if the negroes of the lower Mineis sippt Valley, one of the most densely populated regions in the country, bad im proved in their material condition since the war, he said:

the war, he said:
"I answer, in a general sense, in the alternative, but the improvement among the colored people has been, relatively, about in proportion to that of the whites. During the past ten years there has been what may be called a general paralysis of the sarfeultural industries of the South, resulting from the low write of cotton. resulting from the low price of cotton which is the principal product of the Mis strsippi delta. The price of cotton is now between six and seven cents a pound for middling cotton, whereas,, about eight years ago, it brought from nine to ten cents a pound. While this depression re-sulting from the falling off in the price of cotton has produced the paralysis to which I have alluded, I think it is felt to a greater extent among the whites than with the blacks, because the capital is furnished by the whites, while the labor is furnished by the blacks."

Discussing the condition of the negro in the South, and asked if he saw any appreciable improvement in the race, the ex-congressman said: "Not during the past ten, years, Between the abolition of slavery and 1884 there was marked imthis earl!. Gorman is the master machinist of corrupt politics in the United States.—Richmond Times.

Which proves that the Times is as ignorant of the true character of Mr. Gorman as it is of that of the man in the moon. It Senator-elect Martin shall have the respect and influence in the Senate and throughout the country accorded to Mr. Gorman, Virginia may well be proud of her two senators.—Alexandria Gazette.

We have noticed this in the Gazette but had foreborns. VIRGINIA NOTES,

Dr. John L. Harmanson, of Accomacounty, is dead. The grip is not as prevalent in Loudoun county as it was a few weeks ago.

Captain G. R. Head, formerly Mayor of Leesburg, was paralyzed on his right side on Friday morning. The South Boston Times demands a dos-taxing law. It shows that without

such a law sheep raising is impossible in Halifax. The gloomy outlook for ice this winter has turned the attention of some of the Leesburg business men to the consideraion of establishing an ice manufactory

The Adventist evergelists are creating The Adventist evergetists are creating quite a sensation in the eastern part of Alleghany county, and many converts have been trade by their preachities. They are expected to hold forth in Clifton Forge

At West Columbia and Clifton, W. Va. At West Columbia and the Art years people are suffering for the heccasaries of life, and the Governor will be asked for aid. The people of these towns are, it is reported, refused help by the overseer of the poor, and dezens of families were found entirely without fire or food of any hind. of any kind.

And now the Legislature wants to require all railroads hereafter to be chartered to furnish its members with free passes. Danville has half a dozen or more and the control of t tonds on paper already chartered that will furnish passes on application, and walking is said to be splendid on the Virginia and Kentucky, the Danville and East Tennessee and the Dan River and

The appointment of Mr. Harvey L. Wil on as assistant librarian of the House of Representatives is a deserved compilment to a worthy man, and Mr. Wilson's friend in this city were very glad to learn or his good fortune. Mr. Wilson was for a long time connected with the local staff of the Times in this city, and it is safe to say that no newspaper man was more popular.-Richmond correspondence in the Alexandria Gazette.

Delegate George W. Koiner, of Augusta Delegate George W. Komer, of Augusta county, yesterday introduced in the House of Delegates the bill which he so successfully engineered through that body at the last session, providing for the employment of female phyticians to care for females in the insane asylums of the State. Through the opposition mainly of a few physicians the recasure was defeated in the Senate two years ago, but feated in the Senate two years ago, but we trust that it will share a better fate at the present session.-Norfolk Ledger.

Sheriff Veitch, of Alexandria county, who was in Washington Saturday, talk-ing about driving the policy and crap players from Jackson City across Long Oridge, as drovers drive cattle, last week, says he will do so amon should occasion arise, and also that if the Governor of he State or the authorities of Alexandria county shall so direct, he will expel every and all sorts of gambiers from Jackson lity, and keep them out; but that he annot do so without an order to that

cently made that now celebrated charge to a Federal grand jury is the same indi-vidual, says the Norfolk Ledger, who consulfed Vice-President Stevens as to the advisability of his, Speer's, essaying, in his State, the part of General Mahone in Virginia, and who was told by the sage of Liberty Hall, as he patted him the shoulder, "It won't do, my dear y, in Georgia." Judge Speer's charge es far to establish the truth of Mr. John Wise's famous definition of a south-ern Republican—"He is an apostate for the price of his apostacy." Mr. Speer, pointed judge by a Republican president.

THEY ARE HOME AGAIN.

After Visiting Ma ion the Committees Reach This City Sunday Evening. After four days' traveling the legislative wayfarers returned on Sunday evening from their four of inspection through

the Southwest. After the return from Blacksburg, on Friday evening, everybody retired early to secure some much needed rest. The next morning was a beautiful one, al-

fast the excursionists started for Marion visit the Southwestern Lunatic Asy The party had been increased by Capt. Sol. Vance Lovenstein, the son of Senator Lovenstein, and Captain Theo-dore Graham, of Florida, both students it the Blacksburg College. Shortly after noon Marion was reach-

institution the committee held a meetinstitution the committee held a meeting at the office of the superintendent, Dr. Robert J. Preston, and listened to a detailed statement of the latter as to the condition and needs of the institution. After dinner the various buildings were inspected, and a visit was also paid to the form of the asylum where every to the farm of the asylum, where every dition. The rest of the afternoon was spent in the company of a bevy of charming young ladies, of Marion, who happen-ed to be visiting at the Institution.

After tea a hop was given in the big reception hall, in which the immates of the asylum also participated, and sane and insane had a very pleasant time. It was after II o'clock when the party finally returned to their car.

Shortly before Richmond was reached a meeting of the travelers was reached a meeting of the travelers was called, over which Captain Wm. J. Binford, of Henrico, presided, and a unanimous vote of thanks was passed to Senator Stubbs, Mr. Campbell of Amberst, Mr. Akers, as representative of the railroads, and as representative of the railroads, and Mr. Lovenstein, for the many courtesies shown the committees on the trip. Mr. Fentress was delegated to bring the gentlemen before the committee, and in a few well-chosen words Captain Emford explained the action of the meeting. Senator Stubbs briefly replied on behalf of himself and his collegues.

University Extension Lectures,

The third of the series of University Extension Lectures, under the auspices of the alumni of Richmond College, will be delivered to-night in the lecture-room be delivered to-night in the lecture-room of the Grace-Street Baptist church at 8 o'clock. Professor H. H. Harris will discuss the "Transition from Epic to Lyric." These lectures are growing in popularity, and it is expected that the theme to-night will prove even more interesting than those heretofore.

Robbed in the Market.

While in the Second market on Saturday afternoon Mrs. J. E. Tillar was robbed of her pocket-book by a negro.

The negro, seeing the end of the pocket-book protruding from the pocket of the lady's sacque, holdly selzed it and made his escape in the crowd. Mrs. Tillar's loss is \$6 in currency, a pearl-and-gold pencil, and her latch key.

THE TIMES' DAILY FASHION HINT. The Society Girl Wears Shining Lizards Instead of Sparkling Diamonds.

NOVEL HAIR ORNAMENT,

"Yes," she said, as she disentangled the "Yes," she said, as she disentanger on little lizard-like tail of her chameleon from her left ear, "the Bachelor's ball was a succes." The ear was pink and warm, and the chameleon liked to stay there, but she had not become accustomed to the cold-hodled little animals, so she to the cold-fodled little animals, so she took him off her hair and pinned him down on her corsage, where his little gold chain allowed him very little leeway. Strange fashion this! To chain such little beasts to one's self for an ornament, as if all the earth's mineral and vegeta-ble treasure were not enough for woman's adornment without resorting to live

The Bachelors' ball may have been sucreasful, but it was evidently not aufli-cient, for she was decked out for an-other, as gayly as if she had never tasted the joys of ball-room excitement. She wore a dainty, disphanous gown of pale heliotrope, but it was not her dress which made her lovely. Her hair was gold and had just the right twist to make her look fetching. Comped high in a French twist fetching. Combed high in a French twist at the back it stood up in a little knot at the crown of her head. In front it was parted about two inches back, then twisted back on each side under the coil. It was then waved slightly around the front

and sides.

This is the way Caroline Miskel ar ranges her hair, and it is a favorite with ranges her hair, and it is a layorite with young women for evening. Another pretty arrangement beautified the rayen locks of the slim brunette to whom she was talking. Her hair was very fine and glossy. It was parted in the middle and wavel in three waves at each side; then combed back and twisted in a fight knot have water that the blonde's in exactly the same spot that the blonde's lair was, but instead of standing straight up, it stood straight out in the back. There was no bang, but in the very mid-dle of the forehead was a thry tuft of hair not more than half an

Dr. Potter's Last Lecture.

The final Bluminated lecture of the pre-sent World's Fair series by Dr. D. C. Potter, of New York, takes place to-night at the Mozart Academy of Music. The sub-ject will be "The Midway Plaisance," the wickedest street on the globe, the best advertised street on earth. Dr. Potter will entertain the audience in a descriptive manner more than pleasing on this vast subject; his illustrations and descriptions of all that was exhibited there and then, is more than of ordinary amusement. The Turk Syrian, Egyptian, and natives of all the remote corners of the globe, together with their villages, streets, etc., will be seen, the dancing girls, the dance that was suppressed by the police in New York. The greatest construction of mechanical art, he Ferris Wheel, in ten views Those who have waited for this last ecture cannot afford to lose it; those who have been entertained and amused dur-ing the first three lectures will be the more pleased at this final lecture of the
